Taylor, Jr., prosecuting attorney vs. Walter D. Guilbert, auditor of the state of Ohio, quo warranto. The suit is a friendly one to test the validity of the act, and the matter will be set for immediate hearing.

State Auditor Guilbert will have to go to considerable expense in getting blanks and the like printed and he wants to know "where he is at" before doing this. A former inheritance tax law was declared unconstitutional owing to the arbitrary line drawn for the exclusion of states below that line. The present measure is, in the amended form in which it passed the legislature, closely resembles the law declared invalid.

FIRST CHURCH ANSWERS THE LOSS OF LIFE CREAT HIS DEATH

Lisbon, April 28.-(Special.)-An answer has just been filed in court byterian church of Wellsville vs. the First Presbyterian congregation in that city, in which the plaintiff asks that it be given a clear title to the real estate it occupies and supports in West End, Wellsville, which was purchased and fitted up as a place of worship and a sort of a mission by the First church some years before the organization of the Second church.

In its answer the defendant church denies, in referring to an action of a ommittee appointed by the Steubentitle to the premises it occupies, that the constitution or laws of the Presan church in the United States confer upon any of the various assemblies of the church, whether Con- CONGRESS ADJOURNED any jurisdiction whatever, to divide or apportion the property of its conbeing wholly moral or spiritual.

The defendant congregation admits that on September 30, 1891, at a special meeting, it decided to purchase two lots in the west end of Wellsville the trustees of the congregation mage the purchase later with \$2,000 appropriated from the funds of the church and \$850 additional raised by subscription. In the spring of 1896, the West End mission was organized as the Second church of Wellsville, by the Steubenville presbytery at its meeting on May 5. The congregation was organized with 92 members who withdrew from the First church and become a tenant congregation of the First church for a period of five years at an annual rental of \$1 a year, which arrangement was carried out until December 2, 1902.

The defendant First congregation says that never at any time did the Steubenville presbytery attempt to divide either the congregation or its property and that it was not bound by any requirement to convey any of its West End property to the Second church. On December 2, 1902, however, it did convey one 50-foot lot, including the house of worship situated thereon, but has by unanimous vote repeatedly decided to retain the remaining lot. The plaintiff church has continued to demand a deed for the unused lot, it is alleged, until the agitation has been decidedly detrimental to the spiritual welfare of both congre-

It was developed by the cross-examination that the Davis girl was in the Wellsville city jail not long since for some misdemeanor.

In assailing the credibility of the prosecuting witness Chief Fred Houser and Officer Charles Williams, of the Wellsville police force, were put on the utation for veracity was such that they would not believe her on oath, but it was shown that their judgment might

Mr. Newell was reported to have reconsidered his determination to be a candidate several weeks ago, but this was an error and seems to have been circulated for what good it might do some of the other candidates. Though not yet formally announced, he is a full-fledged candidate and has begun an active canvass.

Hon. P. A. Pugh, of Gas Valley, is the most aggressive fighter in the lineup. He served the county in the house of delegates, and made a record which pleased his constituents and reflected credit upon himself. He believes, with his friends, that he is justly entitled to be advanced to the senate, and they will do their best to put him there.

Mr. Marshall, who has already served the district as state senator and was highly honored at that time, is from New Cumberland. The gentle man has a wide acquaintance throughout the county and will doubtless make a good showing. He is taking no ac tive part in politics just at present owing to the serious illness of his

Trenton, N. J., April 28 .- As the outcome of the suit brought two weeks ago in the United States circuit court here by Pass & Seymore, of New York, against Edward H. Freeman, of this city, for the alleged infringement of patents for the manufacture of the porcelain parts of electric light plugs, the same firm has brought a second suit against the Duncan MacKenzie Sons company, of this city.

In their declaration on this last suit long ago decided to have a supply Pass & Seymore aver that they are shipped here and today received 11 the owners of two patents for the manufacture of the porcelain plugs in ques-Kan. They are at the Y. M. C. A. tion and that Edgar H. Freeman was building and will be distributed over infringing on both of them. The first suit was brought and a temporary injunction pending litigation was allowed by the court. It is further claimed that Freeman occupied a part of the factory of the MacKenzie company, which company was supplying him

with the porcelain parts of the plugs. It is alleged that the MacKenzie company has made and sold large quantities of the articles ail over the country, especially to the American Supply company, of Baltimore. The claim is made that the porcelain articles are the essential part of the invention, and anybody can apply the metal parts. The court is therefore asked to decree that the defendants acthree times the amount of whatever bles, no matter how serious or deepincome it has derived from the sale of the parts; that they be restrained from the further manufacture of them and that the parts now in the possession of the defendants be destroyed. The date has not yet been fixed for the argument in the case.

With the completion of Trenton's splendid underground fire alarm system practically every pottery in the city is being equipped with auxiliary fire alarm boxes. This will be a big improvement over the old system. Each pottery installing an auxiliary box is given a special number by the fire commissioners and the box is known always by that number. When a fire occurs in the pottery the pottery box is pulled instead of the old method of running to a general box somewhere in the neighborhood, which might not indicate the exact location of the fire within two or three blocks. By the new method the instant the alarm is sounded the firemen know where the fire is. Another advantage is that all the electric alarm wires being underground they can never be put out of commission by the weather.

CANCER CURED IFE PLAN

While the proprietors of LIFE PLANT have always guaranteed a cure or mone refunded, in all cases of Rheumatism. Gout, Stomach and Liver troubles, and all ordinary forms of skin and blood diseases, they have never said that it was a certain cure for Cancer, but that it does cure Cancer is fully established by the

wing letter:

Gentlemen:— NEW CUMBERLAND, O., Nov. 3, 1903.

Fleven years ago a cancer appeared on my left ear. It was small at first, but, as is the case with a growth of this kind, it gradually increased in size and severity. One of the cartileges of the ear was entirely eaten away. There was a raw sore on my ear and face as broad as your finger and about two faches long. You can imagine how I suffered.

That eating, gnawing sensation continued without interruption day or night. Occasionally a blood vessel was eaten off and the blood would trickle down my face. For three years I could not be in bed without tieing up my face on account of the continued suppuration of the wound. My condition was indeed deplorable; a rancorous, loathesome cancer, eating away my life, inch by inch.

the continued suppuration of the wound. My condition was indeed deplorable; a rancorous, loathesome cancer, eating away my life, inch by inch.

1. of course, sought advice from numerous physicians; I called upon physicians of St. Louis and Cleveland, and was under treatment by local physicians for a number of years. The last physician to whom I talked told me plainly that I would not live four months unless I submitted to an operation. It was then that the good old Rev. Scutt told me he thought that Life Plant would help me.

I immediately began taking Life Plant; I had not taken one bottle until the eating sensation lessened. I stopped all other treatment, and have taken nothing but Life Plant since.

I realized that I could not be cured of a disease that had been coming on me for years and had reached the stage of development that my case had, by one or two bottles of Life Plant or any other medicine. I settled down to taking this one remedy, and, while I improved from the very beginning, the cancer, was not entirely cured for years.

I began taking Life Plant on or about the 16th day of September, 1897, and now I am 57 years of age, and as well as ever, sound in every particular. There is no more cancer, the sore is entirely healed, and nothing but a scar remains to show that my life was once threatened with a deadly cancer.

Now I want to say that in view of the fact that cancer is one of the most severe and stubborn blood diseases known, and in view of the fact that Life Plant will cure any disease arising from impure blood if the patient will cure any disease arising from impure blood if the patient will persist in its use as I did. I have said nothing but the truth, and stand ready to back every word with an affidavit if called upon to do so. Wishing you success, I am sincerely yours.

Life Plant is for sale by all Pruggists, or will be sent anywhere, charges paid, on receipt of the called upon to do so. Wishing you success, I am sincerely sours.

LOCAL HORSEMEN TO ORGANIZE A CLUB

Plan to Lease Columbian Park Being Talked of And Many Are Becoming Interested.

The base ball team representing the

East Liverpool letter carriers has been practicing faithfully during the past few weeks and the members have at tained a degree of efficiency in their respective positions which will undoubtedly win many games for them during the coming summer. The team was to have played the high school nine yesterday afternoon, but the grounds were too wet for the game. The Y. M. C. A. will be represented by a ball team again this season and a meeting will be held tonight at the parlors of the organization by those interested. Richard Potts and Wife Tried For Alleged Neglect of Aged Women and Child.

Many Witnesses Heard, After Which the Couple Were Reprimanded By the Mayor and Dismissed - Both Sides of the Case.

"If I have ever done any harm to my mother-in-law it was through ignorance, and I ask God to forgive me. will never do it again. She is a good old woman, I love her. She seems more like an angel to me than a woman.'

These words were spoken by Mrs. Richard Potts before Mayor Weaver while on trial, together with her husband, charged with abandoning the mother of Potts and failing to provide for their little seven-year-old girl.

Mrs. Potts seemed sincere in all that she said and it was the decision of the mayor that neither she nor the husband wilfully committed any wrong. The evidence showed, however, that they had acted contrary to the law, which is very stringent on cases of abandoning parents or childdroa, aged 14, were married at Sharon, ren, and the chief executive gave the couple a severe reprimand. He said there were provisions sufficient to keep the woman and child, but they would be of no use with no one there to prepare them. He has had her at his home since last Saturday.

> Other witnesses for the prosecution swore that they found the woman in a pitiful condition on last Wednesday evening. A little girl gave the information regarding the situation at the home. All these witnesses testified there were plenty of provisions and that Potts is a hard worker.

The witnesses for the defendant tes tified that Potts had always treated his mother as well as a son could treat a mother. All gloomy depression and sense of anxiety will fade from your mind; your nerves will become strong and steady as steel; your ambition will be restored and perfect health and strength will take the place of weakness and debility. The testimony of thousands of men and women whom BAR-BEN has lifted from this helpless condition of long suffering tells the tale of this great remedy more effectually than words can portray.

The dates for the installation, as well as the reception to be given him, have therefore been postponed.

It will be remembered that at the time Rev. Mr. McMillin preached his first sermon here was was suffering with an attack of grip and indigestion. He is not a sickly man and previous to that sickness had enjoyed the best of health. The attack of grip left him in a condition bordering on nervous collapse and he spent several weeks in a sanitarium before coming here to take up his duties.
